

How to sell items on craigslist

- Visit our homepage, click on craigslist.org

Check the location before posting and select your appropriate location from list of available sites

- Click post to classified option from left corner
- Select a category according to your post
And depending on the type of category there will be more specific categories
- Enter text of your post
Posting title, posting description, and reply to are important fields to be added.
After adding this select continue.
- In some categories, there will be an add image option. Then after adding images submit and continue.
- Finally check all the details of your post including the location category etc. plus select edit images or edit text for more changes.
- Your post is published.
